HOW GOD HAS DEVELOPED MANKIND THRU EDUCATION.

The following are excerpts from the address of Dr. J. W. Pearson delivered at the Methodist church Sunday, May 8.

Education was God's first thought for man. God perfected the physical universe in creation and made man to become master of all things. But a brief study of the history of man will show that man in his natural state has always failed, and has only succeeded as his ideas of God have been transformed by an educational process.

Moses, though well informed as to secular knowledge, had to have 40 years training in the school of religion before he could get the right conception of God's program for his life's work. The children of Israel were detained in the wilderness for 40 years in the law school of Moses before God would let them go over into the promised land. The tenor of the whole Old Testament scriptures teach us that God has been making the history of the world by the educational process. The law of Moses is represented in the New Testament as the school master. God has been leading his children out of chaos into the marvelous light and liberty by the process of promotion. As they have finished one grade they have been promoted to another.

Christ is an example of God's educational process. Born in ignorance He grew in stature and in knowledge, and was known as the greatest teacher of the world. In selecting his disciples He chose the uneducated, and for three years they were given a thorough training in the great truths of God. Through education they have give us the New Testament. In his great commission to the church He commanded them first to preach and second to teach. Thus, Christianity has made progress to the extent of its preaching and teaching.

Our educational system owes its to the church school, and while the state has made great strides in education, it has always needed the support of the church school. There is no friction between the state and church school. We need more of both, as the demand of the age is not being adequately met. It is deplorable when we face facts and figures, considering all that the state is spending for education, it is a mere pittance compared to what it is spending for other things. If we should ask the hard earned American tax dollar, how our government is spending it, the reply would be: 69 per cent for past wars, 25 per cent for making preparation for future wars, 5 p r cent for the running expenses of the government, and only 1 per cent for education. In view of this fact, and also another more definite yet, is that more than 5000 students were turned away from our own colleges and universities last year for lack of equipment. It behooves us then, not only as a church, but as a nation, to turn more of our money and attention toward education.

Ignore education and your boy becomes a Bolshevik. Teach him religion alone and he becomes a fanatic. Teach him secular education alone and he becomes an infidel. What kind of a man will your boy be?

REGULATIONS GOVERNING STOCKS YARDS AT NASHVILLE.

This agreement, entered into at Nashville, Tenn., between F. L. Murry & Co., and Nashville Livestock Exchange and Nashville Union Stock Yard Co., parties of the first part, and Davidson County Council of Agriculture, party of the second part, witnesseth as follows.

Whereas, there has been a practice on the on the part of the parties of the first of docking truck and wagon hogs five pound per head upon the theory of supposition that such hogs had been slopped or otherwise filled, with intent to deceive the buyer in excessive killing weights; and,

Whereas, this practice has been complained of farmers and others selling hogs on the ground that it is unfair and unjust, in consequence of which, and somewhat at the instance of second party, there has been introduced in the legislature of Tenn., and is now pending there, a bill entitled "An Act to regulate the business of buying, selling, receiving, shipping, feeding, caring for, or handling the livestock of others for profit as a public stock yards, and provide penalties for the violation of this Act";

WHEREAS, first parties have proposed to discontinue the practice complained of in the manner hereinafter provided, so as to make such new legislation unnecessary, which proposal is entirely acceptable to second party;

NOW, THEREFORE, for the purpose of evidencing the agreement between the parties it is stipulated by and between them as follows:

1. Parties of the first part have discontinued the practice of docking trucks and wagon hogs, and agree that such practice shall not be renewed, provided, however, that in a case where it plainly appears that that hogs have been slopped or otherwise filled deliberate intend to deceive the buyer on excessive killing weights first parties will not be required to pay the same price for hogs not so filled, but such hogs may be sold at a lower price, or in extreme cases first parties may decline to buy them at all.

2. Parties of the first part agree to meet with party of the second part, or any committee appointed by it, to discuss frankly and fairly any complaint of farmers that may arise from time to time regarding practices of the first parties or any of them, and to endeavor through negotiation to reach a satisfactory adjustment of any such complaints which will be fair to first parties and those with whom they deal.

3. Second party agrees to use its influence to discourage farmers from the practice of slopping or filling trucks or wagon hauled hogs before they are brought to the Nashville Union Stock Yards for sale, and to use its influence to discredit such practice, and likewise to use its influence with farmers to bring their complaints to second party and to avail themselves of its services in discussing and adjusting such grievances or complaints in the manner here in above provided.

4. In consequence of the understanding represented in this agreement and second party's confidence in the good faith and

good intention of first parties, second party agrees to recommend a withdrawal of said bill now pending in the Tennessee legislature.

ANNUAL INSITUTE TO BE HELD JULY 3 to 8.

The annual institute for Jackson County teachers will be held Gainesboro, beginning July 3rd, and continuing one week.

It was suggested by the State Superintendent, that a teachers normal of one month prior to the examination, May 20th and 21st, for the benefit of those who were expecting to take the examination. I failed to get this suggestion in time to plan and execute it. It would certainly have been a great pleasure to me to have had our prospective teachers for this work.

At some time during the month of June we will have a meeting of the County Board of Education for the purpose of placing teachers. We will notify you through your county paper of the date of this meeting. I would advise the teachers to see your County Board member and place your application for a school now, as it is our desire to give our county teachers choice of places to teach. We would have had this meeting sooner, but thought it best to wait until after the examination, so that we could know how many teachers we had.

Let's all remember that teachers, patrons and school officers, as well as I have a part to play in this, the most important work of our county, state and nation.

Yours for better schools,
Estelle Gailbreath,
County Supt.

Hello! Theo Cason and Calvin Spivey when are you going horse-back riding again?

A Lonesome Girl.

Charles Haile, Base Soloist Appear In Program At School Auditorium.

M. Charles Haile, bass soloist, rendered a very interesting program at the school auditorium Friday evening, May 13th.

Mr. Haile was given a splendid audience, and all who heard him are eager to have him back again.

Mr. Haile for the past eight years has been continuously under the instruction of Miss Ethel Bolen, who is well known for her qualification as an instructor of both vocal and instrumental music. Miss Bolen accompanied Mr. Haile in the program.

Mr. F. B. Maxey, violon soloist, rendered several selections.
